

BOWIE 3400 Hydro Mulcher

The Bowie 3400 Hydro Mulcher features a powerful, high-torque, direct-drive mulch shredder system that pulverizes mulch during the loading process. This hydroseeder also has 3 direct drive mixing agitators. With this fast and powerful loading and mixing capability, these hydroseeders can be filled as fast as mulch can be loaded. When mulch goes into the tank completely pulverized, it goes into solution almost instantly. This very fast loading and mixing is only possible with the powerful but simple Bowie high-torque direct-drive mixing system.

Choose Bowie for Speed and Power!!

The Bowie 3400 Hydro Mulcher comes with a choice of 2 pumps, 2 types of hose systems, an optional clear-water hose flushing system, an optional materials loading elevator conveyor system, and a number of other production enhancing options. With the conveyor a crew can work long days and apply up to 50,000 gallons of slurry a day without excess loading fatigue. Use the centrifugal pump for long life and tower distance shooting, or you can have the powerful hose pumping capacity of a Bowie double-rotary gear pump. Or install an optional Moyno Pump that can pump slurry through 1000+ feet of hose! The Bowie 3400 Hydro Mulcher will pump any kind of hydroseeding mulch just about anywhere. Only Bowie offers so many production enhancing options.

The Bowie 3400 Hydro Mulchers are built stronger and heavier than any other hydroseeder. It can pump vegetative plant material (sprigs or seeds) and mulch through long hoses, and up a hillside. The clear-water hose flush system practically eliminates clogging, even with sprigs.

This hydroseeder can save days of planting time on golf course construction sites. More mulch and materials can be loaded and pumped in each tank load. This results is more material being applied with fewer tank loads. Comparing it with like-sized hydroseeders, frequently as much as 25% more material can be loaded and applied with a Bowie 3400 Hydro Mulcher, resulting in 25% less time and labor to apply the same amount of materials!

Spend 25% less time and labor with a Bowie 3400 Hydro Mulcher!
